

## Analog clock series

# TREND

Modern and slim design. Diameters 30 and 40 cm, with or without second hand.

Available in different colors, as single or double-sided clock.

Double sided-clocks consist of two single sided clocks assembled together by a bracket for ceiling or wall-mounting.

Controlled and powered by the two wire MOBALine or Ethernet/NTP/PoE.

The Ethernet/NTP-version of the clock can be administrated and supervised comfortably by the MOBA-Network Management System.
